

# What a Learning Partnership has done for us ...

Greenfield Primary School.  
Amie Dawies 18.12.13.

Worked with Brett on school website links. Children thoroughly enjoyed the session and learnt many new things. I look forward to showing you how the children have developed this next term. Many Thanks!

3-6-14

Year 1/2 using JIT Amblecote primary

Thank you both myself and the children enjoyed the session and I now feel more confident with using and introducing J2E. The children all learned new skills and became more confident with logging on independently. J. Carter

We all enjoyed the session and I think it really helped the children, making them more confident to log on and use the computer independently. Saver

Our Lady and St. Kenelm Yr 5

21.1.14

Yr5 had an E-safety lesson. They learnt how to stay safe online on different sites they use. It was a very powerful lesson which made the children realise they had information online which could be used in the wrong way. They now know how to limit the information they share to keep safe. Thank You

J. Curran

4/3/14

Year 6 - Colmers Farm Junior  
Children enjoyed looking at the new website and learning how to use it. They were keen to learn that you can use this at home and send work to school. They learnt how to link pages.  
Good session  
Claire Thatcher

3-6-14

Amblecote Primary

A great session learning how to use 'Scratch'. Really informative and the children were engaged throughout. It was great that they were encouraged to find the answers for themselves. Thank you.  
L. Delves

Jane Jacques Scratch course  
17.6.14

Beaconside

Primary and Nursery School

- Well structured, informative and easy-to-follow course.
- I liked the hands-on opportunity to apply what we had learnt.
- Thank you!

# What a Learning Partnership has done for us ...

19.5.14 Bramby Mills  
A great session! All the children managed to create 2 pages linked. Children are looking forward to creating more as they can see the progress they made today. "I really enjoyed today's lesson." Daniel. (high praise indeed!)  
Thank you Kelly.

St. Mary's C.E. Primary, Kingswinford  
A.M. Greet 15/1/14  
The Year 6 chn. learnt how to use 'scratch' to create/run simple programmes. They really enjoyed this session and developed their ICT skills. The accompanying 'scratch' pack has proven a useful resource and I intend to use this, in future lessons.  
Thank you!

14  
18.03.14  
Year 3  
Gig Mill Primary School  
3A were really engaged through-out the interactive session which clearly went through the stages of logging on and using RM Unify. I also found it extremely useful as it showed me how to login and access my emails at home.  
Georgie Adams

21.5.14 Brockmoor Primary School  
Y6  
A very enjoyable lesson with plenty of food for thought. The children were engaged and many of their conceptions were challenged.  
I am sure they will think more carefully about internet use in future. E Hamilton

29.4.14 Glyone Primary 3F  
The children were fully engaged and excited to use 'Scratch' after their introduction to it today! They will enjoy using the programme at school and many will have a go at home too.  
Clearly explained and the children understood how to do the challenges set. Thankyou!  
Miss K. Frazier

20.5.14 Straits Primary School  
Year 4 PH.  
Good to see how 'Scratch' looked different 'online' so that the class can operate in the 'cloud' format and open an account. The session challenged even my more able pupils (who have used Scratch before) and the children had to think for themselves.  
- We will certainly follow this up with the support pack provided. The class really enjoyed this!  
Mr Hardeman 4PH.
