

Make the most of your free BBC computers and find out what they can do...

BBC Micro:bit training for schools

Training to introduce BBC Micro:bit to teachers and pupils

The Micro:bit is designed to encourage children to get actively involved in writing software for computers and building new things, rather than being consumers of media. A million devices have been given to every year 7 pupil in the UK. This course demystifies the tech and explains how to make the most of your devices.

- Don't let your free BBC Micro:bits end up in dusty cupboards!
- Fun, hands on training for staff and/or pupils in your school.
- We will show you how to write programs and ensure that you are familiar with the hardware.

A fantastic way to make best use of this importance device.

- ✓ All you need to know about the hardware and how to program them
- ✓ You will learn how to write programs using the block editor , touch develop and python
- ✓ No coding or technical experience needed – this course is suitable for everyone
- ✓ Can run after school for staff, during the school day for pupils or both!
- ✓ You will be given classroom resources and lessons – all differentiated

Simply provide a room with computers or laptops and we'll do the rest.

A complete day (9am-3.30pm) costs just £480, a half day or twilight is £250.

Book your training at www.catshill.com/microbit email info@catshill.com or phone 01527 313 880.
